

THE MORE YOU KNOW

Chairperson Workshop

Chairpeople can do the darndest things and that's why we're throwing this one. Whether you just got cross-talk going on, or a member on a personal crusade to endorse their religion during their sharing time. It really doesn't matter. Cross addicted, "and uh's", vulgar and explicit drugalouges, members still sharing post 45 minutes after their timer has gone off, or even those blatently loaded when sharing. WE COVER IT ALL!

Disruptive & Violent Behavior Panel

Noisey children at your Homegroup again? Maybe, it's that group of people that keep getting up. Is Don Juan at the meeting "looking out" for all the newcomer women tonight? What about the classic "anonymous trash talking" when two members "almost" direct their comments at another. Well worry no more. Our panel of 3 experienced members are willing to cover your bases and answer all your questions.
