**MACOMB MIRACLES**

**JUST A REMINDER WHY??**

Are we not supposed to give back what was so freely given to us? We come here to escape from our self-centeredness and get clean from the drugs by replacing them with thousands of hugs. After a while, we get complacent and greedy, we no longer are so needy. We forget the newcomer, how it felt to get our 30 days, how special it was. We want more we strive for success and then ask ourselves what happened to this fellowship. Why has it changed, its not like it used to be! Well, maybe if more people stayed to live today because you were once broken and lost. Yet the self-centeredness and lack of humility is who you are these days, you forgot where you came from, lost touch with that now. They say willingness is the key. Once you were willing to do anything to get close, so many people die. Well, maybe if more people stayed and you want more and more, until the very end. I believe again we have no balance and our addiction becomes us! (It’s all about me!) Losing sight of what you were taught from the start, this is a “we” program if we do not stick together we only fall apart. Yes, there is a lack of guidance in this place. Some people with wisdom got greedy and ran, only to come back and get a band-aid every now and then. They cry I do not want to get close, so many people die. Well, maybe if more people stayed to teach us how to get better and be more willing to try. Yes, no one governs in this place. However, without someone to look to for experience, strength and hope, the next best thing we know? Is to pick up the dope! Just for today, I will work the steps! I will try because however, without someone to look to for experience, strength and hope, the next best thing we know? Is pick up the dope! Just for today, I will work the steps! I will try because... I do not want to die....
